A NOTE TO THE USER

Numbers at the end of lines refer to the pages in The Biographical Encyclopaedia of New Jersey from which the information in an entry was taken. Those who have access to that volume may find additional family names on those pages but all information as to births and deaths is included in this list. Since the encyclopaedia was published in 1877 it is safe to assume that men and women whose birth dates were 1790 or later and whose death dates do not appear were living in 1877.

Abbreviations familiar to genealogists are used throughout this list. If a place name is not followed by that of a state it may be assumed that New Jersey is meant, with a few obvious exceptions such as Philadelphia and New York City.

No attempt has been made to suggest different spellings of the same family name but full references from maiden to married names of women are included.
